

Green and Grow Wright Professional is a quick response formulation of Nitrogen, Phosphorus, Potassium, and Iron. This product is highly effective for use when plants are struggling and a fast boost to get through stress conditions is desired. **Green and Grow Wright Professional** will enter the plant within 3 – 4 hours quickly and effectively mobilizing nutrients to show response within 24 hours. The nutrients in **Green and Grow Wright Professional** will feed the plant approximately 5 to 7 days making this an excellent addition to a balanced foliar fertility program in many fruit and vegetable crops.

Guaranteed Analysis:

Total Nitrogen	9.00%
2.00% Nitrate Nitrogen	
5.00% Ammoniacal Nitrogen	
2.00% Urea Nitrogen	
Available Phosphoric Acid (P₂O₅)	6.00%
Soluble Potash (K₂O)	3.00%
Chelated Iron (Fe)	.10%

Technical Data

Net Weight per gallon	9.37#
pH @ 60°	6.35
Freezing Point	28°F

Physical Description

Under normal conditions Green and Grow Wright Professional is a clear/green odorless liquid

Environmental Concerns

No detrimental Environmental implications

EPA Hazardous Substance: NO

Ingestion Hazard: Low Oral toxicity

Skin Hazard: Low Irritation Potential

Eye Hazard: Low Irritation Potential

General usage guidelines: 1. Mix in ratio with water at 1:10 – or may be used in combination with other **LIQUID** products to enhance nutrient analysis and uptake. Normal recommendation is from one to two quarts per application and may be repeated as often as necessary for correcting deficiencies and increasing production. This material can be applied with a ground sprayer or high pressure orchard sprayer.

Note: This product is intended for use in mixing or blending with other fertilizer materials to produce fertilizers in which the total primary nutrient guarantees equal or exceed 24%. (Ag 17.03(1m). Wisconsin
